

ROC Acceptance Key Point

Introduction

solar orbiter

- ROC AKP Web page:
 - <https://confluence-lesia.obspm.fr/pages/viewpage.action?pageId=38601262>
- Internet access available

- **Review ROC capability to ensure activities planned during commissioning and early cruise phase**
 - Present ROC operational design and test/validation environments
 - Report ROC validation activity results
 - Review ROC requirements compliance
 - Raise RIDS and plan road map with action-items

START TIME	DURATION	TOPIC	PRESENTER
10:00	5 min	Welcome, round table, objectives of the KP	X.Bonnin
Context			
10:05	15 min	ROC operational design	X.Bonnin
10:20	10 min	ROC validation test environment	S.Lion
10:30	10 min	ROC software quality	S.Papais
ROC data processing capability review			
10:30	2h30	ROC data processing capability review (including coffee break)	All
13:00	1h30	Lunch	
ROC operations capability review			
14:30	2h30	ROC operations capability review (including coffee break)	All
Ending sessions			
17:00	30 min	Review group debriefing	Review group only
17:30	30 min	Conclusion and action-items	Review group leader
18:00		End of meeting
