

# E2E-0 Test

## Context

The purpose of the E2E-0 test is to check the set of flight procedures/sequences to run the IOR related to the LTP SOWG10 exercice timeline (see [https://solarorbiter.esac.esa.int/soopkitchen/#planning/SOWG10\\_LTP\\_Exercise](https://solarorbiter.esac.esa.int/soopkitchen/#planning/SOWG10_LTP_Exercise))

The delivery of the datapack is detailed in [RPW E2E-0 TEST DATAPACK RELEASE](#).

## Specification and results

E2E-0 test specification and results are available in <https://issues.cosmos.esa.int/solarorbiterwiki/display/SOSP/SOC+System+Test+Documentation>
